

Accessibility Statement

HT&T Consulting srl is committed to making its website accessible, in accordance with Italian Law No. 4 of January 9, 2004.

This accessibility statement applies to the website <https://www.htt.it/>

Compliance Status

Partially compliant

This website is partially compliant with the requirements of Appendix A of the UNI CEI EN 301549 standard due to the non-compliance cases listed below.

Non-Accessible Content

The content listed below is not accessible due to non-compliance with Italian Law No. 4 of January 9, 2004.

The site may present access difficulties for some people, particularly those who use assistive technologies like screen readers or special keyboards, or those with visual, auditory, motor, or cognitive impairments.

- **Missing or insufficient alternative text for some images**

Images should always have a textual description that allows those who cannot see them to understand what they represent. If it's missing or unclear, screen reader users lose important information.

- **Navigation not fully usable by keyboard**

Some parts of the site may not be reachable or controllable using only the keyboard, thus excluding those who cannot use a mouse.

- **Insufficient contrast between text and background**

If the colors of the text and background are too similar, people with visual impairments or color blindness struggle to read the content.

- **Unclear or non-standard structure and headings**

Titles and headings should follow a logical order to facilitate orientation and comprehension by users and assistive devices.

- **Contenuti multimediali senza sottotitoli o trascrizioni**

Video o audio privi di sottotitoli o alternative testuali limitano la fruizione a persone con problemi uditivi.

- **Interactive elements without clear indications or instructions**

Buttons, links, and forms should be easy to understand and use, with clear visual and textual feedback.
